PARADIGM HEALTH

Hospice and Palliative Care Options for Individuals with Alzheimer's Disease

Alzheimer's Disease Facts:

- An estimated 6.7 million Americans aged 65 and older are living with Alzheimer's in 2023.
- Alzheimer's disease is the fifth-leading cause of death among Americans aged 65 and older.
- Hospital readmission rates are 21.5 percent for patients with Alzheimer's disease and related dementias.

Paradigm Health Palliative Care:	VS	Paradigm Health Hospice Care:
• Palliative care symptom management and education is provided by a nurse practitioner led team with up to 3 disciplines.		• Physical, social, spiritual, and emotional care are provided by a hospice physician led interdisciplinary team consisting of patients and their families, professionals, and volunteers.
• The individualized plan of care is based on patient goals of care and medical need. Individualized visit frequency is lower than hospice care (typically every 30-45 days).		• The individualized plan of care is based on a holistic approach to meeting the patient's and family's goals of care. Individualized visit frequencies are higher than palliative care.
• Offers comprehensive symptom management in collaboration with other providers with a goal to reduce avoidable ER visits and hospitalizations.		• Offers comprehensive symptom management through an intensive program that focuses on comfort and promotes quality of life for individuals and their families. Utilizes pharmacologic and non-pharmacologic interventions.
• Works alongside any desired aggressive disease treatment.		
• Provides Alzheimer's Disease progression and treatment option education along with goals of care discussions and assistance with navigating the health care system, including putting together advance directives.		• Provides end of life education in the context of the individual's goals and values. The individual's choice and decision regarding care are paramount and followed at all times.
• Medical supplies, equipment and medications are covered through insurance or private pay.		• Hospice medical supplies, equipment and medications are covered by Hospice agency.
• Palliative care can be provided wherever an individual calls home and is billed through Medicare part B or private insurance.		• State-of-the-art palliative and support services are available to individuals 24-hours a day in both home and facility-based settings.
		• Family caregivers and/or inner circle are offered bereavement care for 13 months following death of their loved one.

Paradigm Health

WHEN TO SCHEDULE A HOSPICE OR PALLIATIVE CARE CONSULTATION

When an individual begins to experience one or more of the criteria below, it may be time to ask for a hospice or palliative care consultation. If you are a loved one has noticed:

- A decreased desire to eat or taking longer to eat meals
- Documented or consistent, progressive weight loss
- Worsening mobility and function
- Requiring more assistance to bathe/dress and ambulate
- Frequent infections/wounds that are not healing
- An increase in sitting or being bed bound
- Increased napping/hours of sleep
- Increased confusion
- Increased difficulty communicating

> *The time we had the extra care of the Paradigm Health Palliative and Hospice team was such a blessing. We wish we had engaged in your services sooner.*
